About Kuo Diedrich Chi Architects

Kuo Diedrich Chi Architects (KDC) is a full-service, international architecture and design firm specializing in lifestyle-focused solutions for club and resort clients. Formed through the merger of Kuo Diedrich Architects and Chi Design Group - representing more than 30 years of successful collaboration - the firm is built on a shared belief that exceptional design is as much about relationships as it is about results. By actively listening, collaborating closely and applying deep expertise, KDC transforms complex ideas into creative, functional spaces that reflect the evolving needs of modern lifestyles. In September 2025, KDC joined ClubWorks, a portfolio of industry-leading firms serving the private club, hospitality, and real estate development industries, founded by Tidewater and Palm Beach Capital.

More information about Kuo Diedrich Chi Architects is available at kdcarchitects.com, on LinkedIn, Instagram and Facebook.
