About Visionary Spectacle Studios

Visionary Spectacle Studios is an international architectural visualization and technology firm specializing in immersive animated video and photorealistic imagery for projects at every stage of the design process. Working with architects, developers, and investors worldwide, VSS transforms concepts into compelling visual experiences that support design development, decision-making, and marketing. Through advanced building scanning, drone capture, and integrated Revit workflows, the studio bridges real-world conditions with digital environments, delivering accurate, efficient, and visually compelling solutions. With offices in Florida, Texas, and Lima, Peru, VSS serves projects ranging from private residences to large-scale master-planned communities. In August 2022, VSS joined ClubWorks, a portfolio of industry-leading firms serving the private club, hospitality, and real estate development industries, founded by Tidewater and Palm Beach Capital.
